

## Mobile Cleaner & Seed Treater

Seed processing plant 2,5 t/h  
based on wheat seeds

**Cleaner** with double trieur  
**Elevator** for feeding the seed treater  
**Seed Treater** with bypass  
and moveable on tracks  
**De-dusting** by double cyclone  
**Feeding** by screw conveyor - foldable for  
transport

### ***Our flexibility → Your advantage & benefit***

-Used for all kind of seeds  
-Robust chassis – pulled by tractor or truck  
-Plug-in electrical installation

Feeding of reception screw conveyor

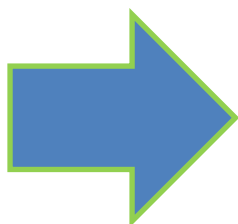

- directly from the truck or tractor trailer
- by container
- by forklift – frontloader
- integrated throughput regulation

Very well proven and efficient cleaning  
with 2 sieve layers and  
connected indented cylinder separator

Easy to operate and accurate seed treating plant,  
which can be bypassed if required

Loading of the finished goods (treated or un-treated)

- in containers
- in Big-Bags by means of a screw conveyor
- on tractor trailer or truck

*Investment costs significantly lower than for stationary processing plants*

*Ancillary equipment such as scales, generator, etc. as requested*

*Nominal performance from 1,25 t / h up to 5 t / h*
